

THE FIRST WORD IN GARAGE DOORS ... OVERHEAD DOOR CORPORATION.

THE LAST WORD IN EXPERIENCE ... YOUR OVERHEAD DOOR DISTRIBUTOR.

When C. G. Johnson demonstrated the original "OVERHEAD DOOR" at a Michigan county fair in 1921, he established and set the standard for the garage door industry. This year, Overhead Door Corporation celebrates 70 years of excellence and has now grown to 400 distributors nationwide.

Today, the "ORIGINAL" continues its industry leadership. Overhead Door Corporation's history of product innovation and our distributors' profes-

sional installation and service guarantee that the broadest line of quality doors and automatic openers is backed by unequalled experience in the industry.

Look for our Ribbon Trademark before you buy any garage door or automatic opener. And trust only your authorized Overhead Door distributor to deliver the quality and service you've come to expect from the first name in garage doors ... Overhead Door Corporation.

Our name sets the standard.™
